

# Haywood Hospital

**2012**

**£1.2M Development**

We produced M&E services designs for a number of concurrent refurbishment and extension projects within the existing Haywood Hospital estate, including: Medical records, Phlebotomy department and Orthotics department. The projects were designed in such a way as to be carried out with the minimum disruption to the existing hospital which remained in operation during each phase of the works. All works were designed in close consultation with the end-users and to hospital HTM standards in order to deliver modern facilities.
